“CBC Pioneers a New Era: Capitalising Together on Multi-Trillion-Dollar Opportunities in CleanTech, Clean Hydrogen, and Clean Water Sectors”

#TogetherWeAreStronger for 10 Years!

#TogetherWeAreStronger

Our Vision

In the last decade, the **CleanTech Business Club** has brought together trusted leaders in solar, CleanTech, and other disruptive technology industries with financial communities, top corporations, energy companies, utilities, political decision-makers, and public opinion influencers. They have worked together to **scale up CleanTech investments #FromBillionsToTrillions** while shaping the future today.

In response to COVID-19, CBC leaders launched the **#TogetherWeAreStronger Initiative**, driven by the power of the H2H blockchain and United DNA. They committed themselves to their manifesto, **#Declaration2030**, followed by the **#JointManifesto2030** to jointly anticipate, shape, and lead the CleanTech decade.

Capitalising Together on Multi-Trillion-Dollar Opportunities in CleanTech, Clean Hydrogen, and Clean Water Sectors #TogetherWeAreStronger

Today, as a unique multi-sector, multi-stakeholder, and multinational family-like action-driven leadership "Think-Do-Tank," **CBC offers business solutions and expert services** to help its members and partners capitalise on multi-trillion-dollar opportunities in the CleanTech, Clean Hydrogen, and Clean Water sectors.

By igniting business ventures, delivering unique business and financial solutions, and sharing forward-looking knowledge and expertise through the CBC Impact Legacy Series, **CBC leaders steer decision-makers and stakeholders** beyond sustainability towards a regenerative future for the world.

As a united force, CBC's leaders and partners **Empower Together CleanTech, Clean Hydrogen & Clean Water Transformation** by combining business with meaningfulness and joy, proving that #TogetherWeAreStronger.

Thumbs Up for CleanTech, Clean Hydrogen & Clean Water #TogetherWeAreStronger!

"I am truly honored to be a part of the CBC family, and to have the opportunity to Co-chair the CBC Clean Hydrogen Hub alongside such talented individuals. With over 15 years of experience in renewable energy, including solar, BESS, and now hydrogen, I am passionate about driving the energy transition forward. At GF Hydrogen Europe, we believe that hydrogen and cleantech go hand in hand, and that together they represent the future of sustainable energy. As we work to build relationships with the Chinese hydrogen industry, I am excited to be a part of such a dynamic and forward-thinking community."

**Justin Gu, CBC Co-Chair of Clean Hydrogen Hub (In Charge of China Relations)
General Manager at GF Hydrogen Europe**

"CleanTech Business Club unites visionary leaders that cherish Human To Human relationship and this is exactly the value that SolarJuice shares with its customers and business partners in Australia and surrounding Pacific Islands. Even though, we are coming from different parts of the world, we feel close to each other thanks to CBC LifeStyle that combines Business with Meaningfulness and Joy!"

**Rami Fedda, CBC Chair for Australia & Oceania
Co-Founder & Supply Director, Solar Juice Pty**

"Battery Storage is definitively THE Game Changer that will enable acceleration of the World's transformation during The CleanTech Decade, and we at Rebirth Capital together with our partners are contributing to this CleanTech Transformation by providing the full Battery Storage Solution at the large scale. Recognizing the pivotal role of Battery Energy Storage Systems (BESS) in this shift, we are dedicated to integrating these technologies to transform utilities and energy companies towards a more sustainable, clean technology-focused future. We want to build a Green Future of our Planet together with Same Minded CBC Leaders TODAY!"

**Andreas Fornwald, CBC Co-Chair of Utilities & Energy Companies Hub (In Charge of USA)
CEO at Rebirth Capital Partners**

CBC Structure & Initiatives

“Truly as much as I have fairly enjoyed being part of many different communities, the CleanTech Business Club is the most fun club with the mission and the purpose. There is nothing we can do by ourselves, but we can and must unite our skills, and drive the positive change together as #TogetherWeAreStronger”

Paddy Padmanathan, CBC Honorary Chair for the Middle East
Co-Founder & Vice-Chairman at Zhero; Former CEO and President of ACWA Power

CBC Business Solutions & Ventures

#TogetherWeAreStronger for 10 Years!

CBC Business Solutions & Ventures

As a unique multi-sector, multi-stakeholder, and multinational family-like action-driven leadership "Think-Do-Tank," **CBC offers business solutions, expert services and groundbreaking ventures** to help its members and partners capitalise on multi-trillion-dollar opportunities in the CleanTech, Clean Hydrogen, and Clean Water sectors.

1. **CBC Business Solutions**, powered by Cleanvestree (the business arm of CBC):

- **CBC Business Booster Service**
- **CBC Project Financing & Origination Facility**
- **CBC CleanTech Startup Hub's Financing Facility**
- **CBC Expert Services provided by "Cleanvestree Experts"** which bring together trusted business, technology, politics, finance, and investment leaders and experts to share their expertise with other CBC members, partners, and the global market:
 - **CBC R&D and Technology Advisory**
 - **CBC Business Development Advisory**
 - **CBC Governmental & Institutional Advisory**
- **CBC #TogetherWeAreStronger Consortiums & Ecosystems with the first venture Go For Hydrogen Africa (GFHA)**

2. **CleanTech Business Institute (CBI)** - which empowers current and future leaders in the CleanTech industry through sharing the knowledge of its unique board of lecturers composed by companies founders & CEOs, industry experts and visionaries.

3. **CleanTech Startup Hub (CSH)** - which unites regional Startup hubs, accelerators, and individual Startups, helps them to scale up through **CleanTech Startup Hub's Financing Facilities** and brings them to the global market through **the World CleanTech Startups Awards**

Clean Hydrogen Epicenter for Morocco & Africa

#TogetherWeAreStronger

"The First CBC #TogetherWeAreStronger Consortium & Ecosystem venture in Morocco, with its Clean Hydrogen Epicentre, Go For Hydrogen Africa (GFHA), marks a pivotal moment for the clean hydrogen transformation in Morocco and across the African continent. We anticipate that Morocco alone will require 50 GW of electrolyser capacity to meet the country's clean hydrogen ambitions, with Africa requiring over 100 GW.

Morocco has a tremendous opportunity to become "the Continental Hub of Clean Hydrogen," not only for production and export but also as a manufacturing center for clean hydrogen equipment, including electrolysers, refueling stations, and other renewable energy technologies such as solar panels, wind turbines, and battery storage systems. This can position Morocco as one of the leaders in the global clean and renewable hydrogen economy.

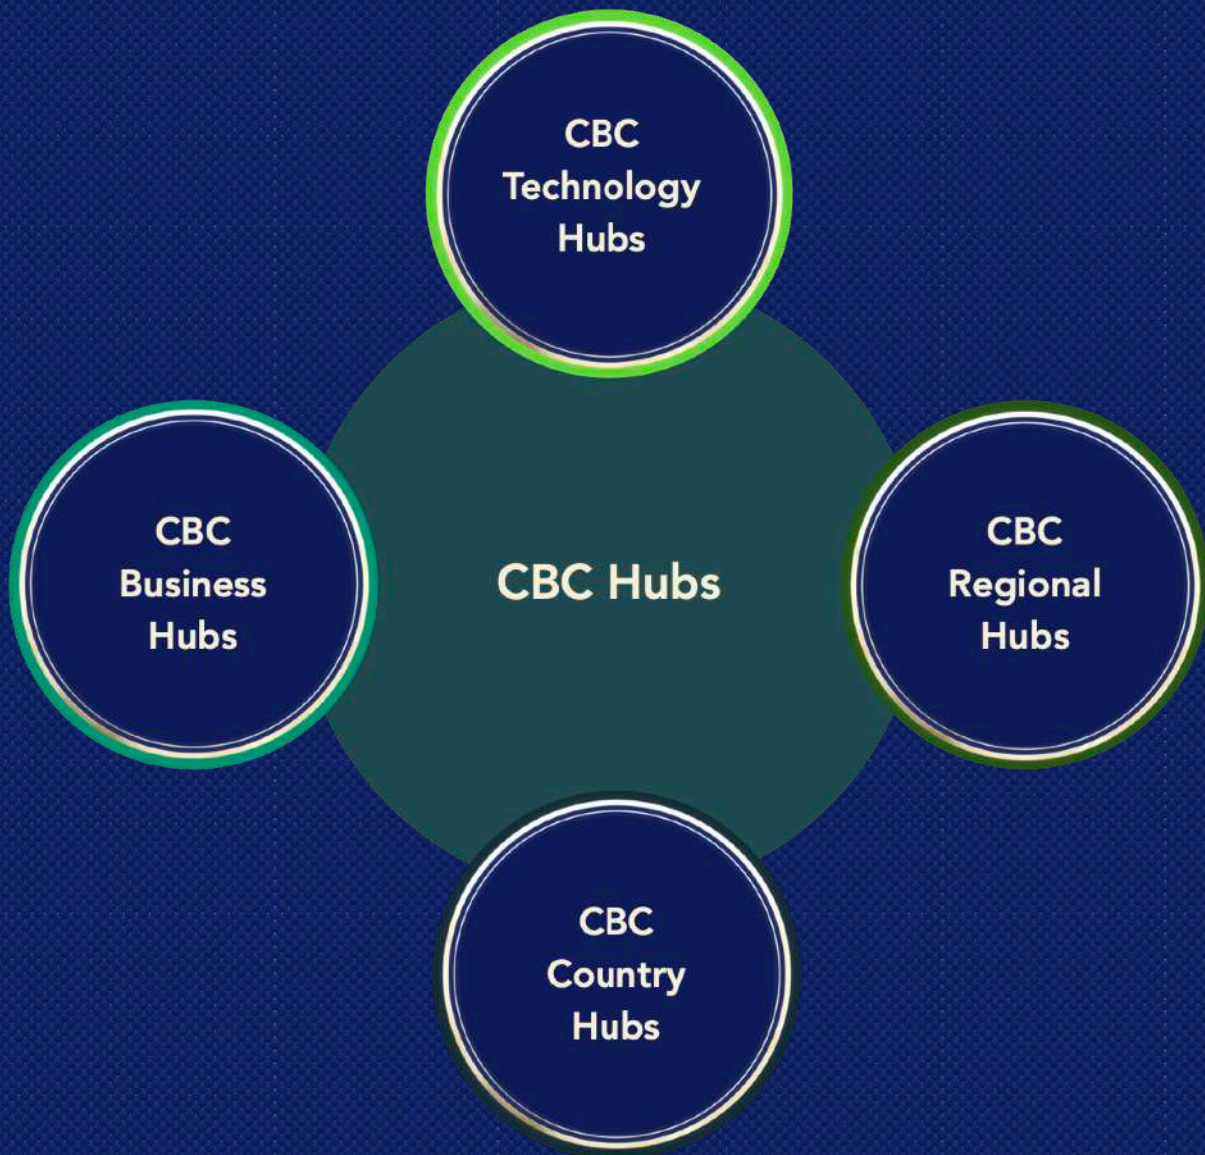

Clean hydrogen has the potential to drive economic development and bring prosperity to Morocco and the entire African continent, and we are here to help empower this transformation. #TogetherWeAreStronger!

Mostafa Boulal, CEO at Go For Hydrogen Africa (GFHA)
CBC Co-Chair for Morocco; CBC Co-Chair of Clean Water Hub (In Charge of Africa)
CEO at COREAS High-Tech

CBC Hubs

#TogetherWeAreStronger for 10 Years!

CBC Hubs

CBC Business & Technology Hubs, "Think-Do-Tanks" of respective sectors, unite the Sectorial Leaders worldwide, while CBC Regional & Countries Hubs unite the Leaders on regional and national levels.

CBC Hubs work independently and in line with #Declaration2030, #JointManifesto2023 as well as #TogetherWeAreStronger Spirit and in cross-fertilisation with other CBC Hubs.

CBC Hubs Leaders ensure that their technology or business sectors, regions and/or countries' voices are taken into consideration while shaping the **CBC Impact Legacy Series: "Quo Vadis Clean Hydrogen?", "StorageVersity", "Clean Water Blueprint", and "The Future - Towards The Regenerative World" which steer decision-makers and related stakeholders.**

CBC Hubs' Leaders represent The Club:

- Towards other Business Stakeholders
 - Towards Sectorial, Regional or National Political Decision-Makers, Institutions & Organisations
 - Partnering Media and other Media Outlets
- ...Moreover, CBC Countries' Chairs are the first contact people in their countries towards international stakeholders

CBC Hubs' Leaders interact at:

- CBC Exclusive Gatherings, Sectorial, Conferences and Exhibitions, or Sessions powered by CBC
- CBC Networking Groups on WhatsApp
- Bilateral & Multilateral Meetings with Political Decision-Makers, Institutions & Organisations

CBC Hubs' Leaders communicate to The World through:

- Speaking and/or representing their Hubs at the above meetings and events
- Interviews & articles on CBC Platform, CBC TV, Partnering Media and other Media Outlets
- CBC Marketing & Communication Tools (access to 930.000+ people around the world)
- Communication channels of CBC Partners and Members own communication channels

CBC Steering Leaders & Decision-Makers

#TogetherWeAreStronger for 10 Years!

The CBC Impact Legacy Series

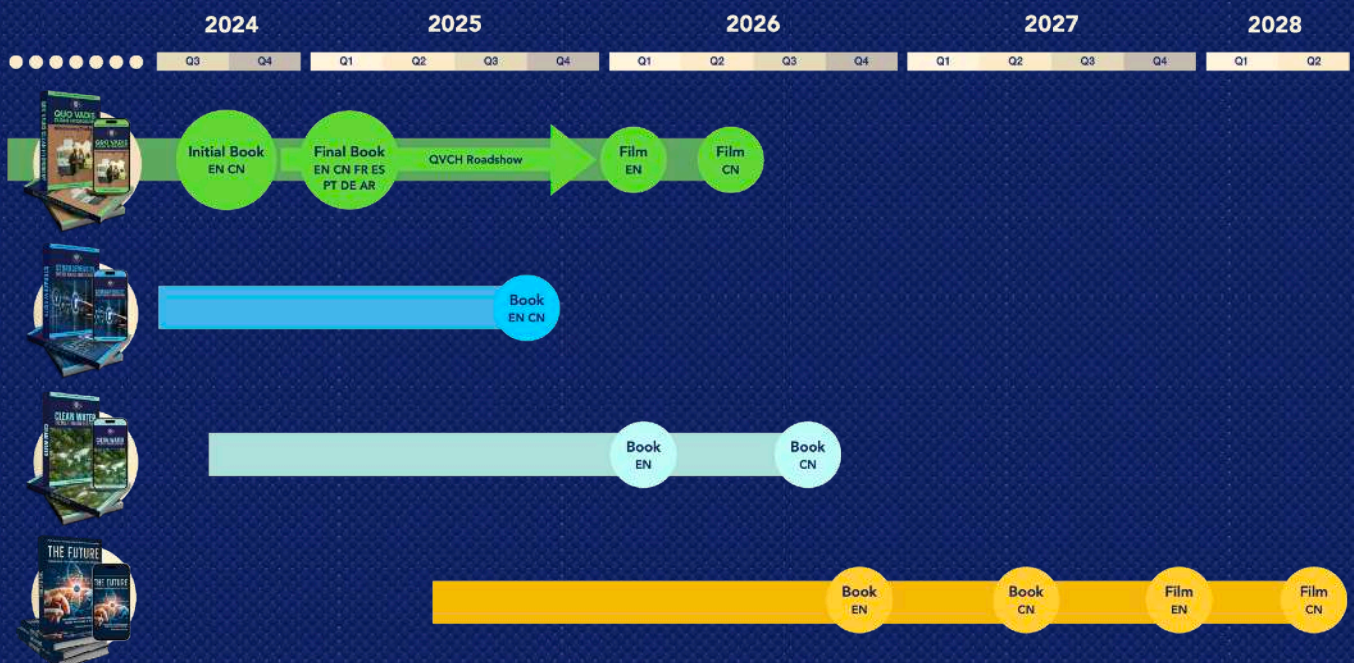

"The CBC Impact Legacy Series" represents a critical collaboration among leaders from the cleantech, hydrogen, and water industries, aiming to synchronize their diverse visions and strategic roadmaps to achieve scalable, multi-trillion dollar ambitions.

This initiative leverages the unique DNAs and human-to-human relationships of industry leaders to foster integrated innovation. By aligning these interconnected sectors, the series not only tackles immediate environmental challenges but also unlocks substantial economic opportunities, driving investment into sustainable practices. This collective effort emphasizes the power of community and global change, striving to catalyze a transformation towards a sustainable and regenerative future. Key reasons for its importance include:

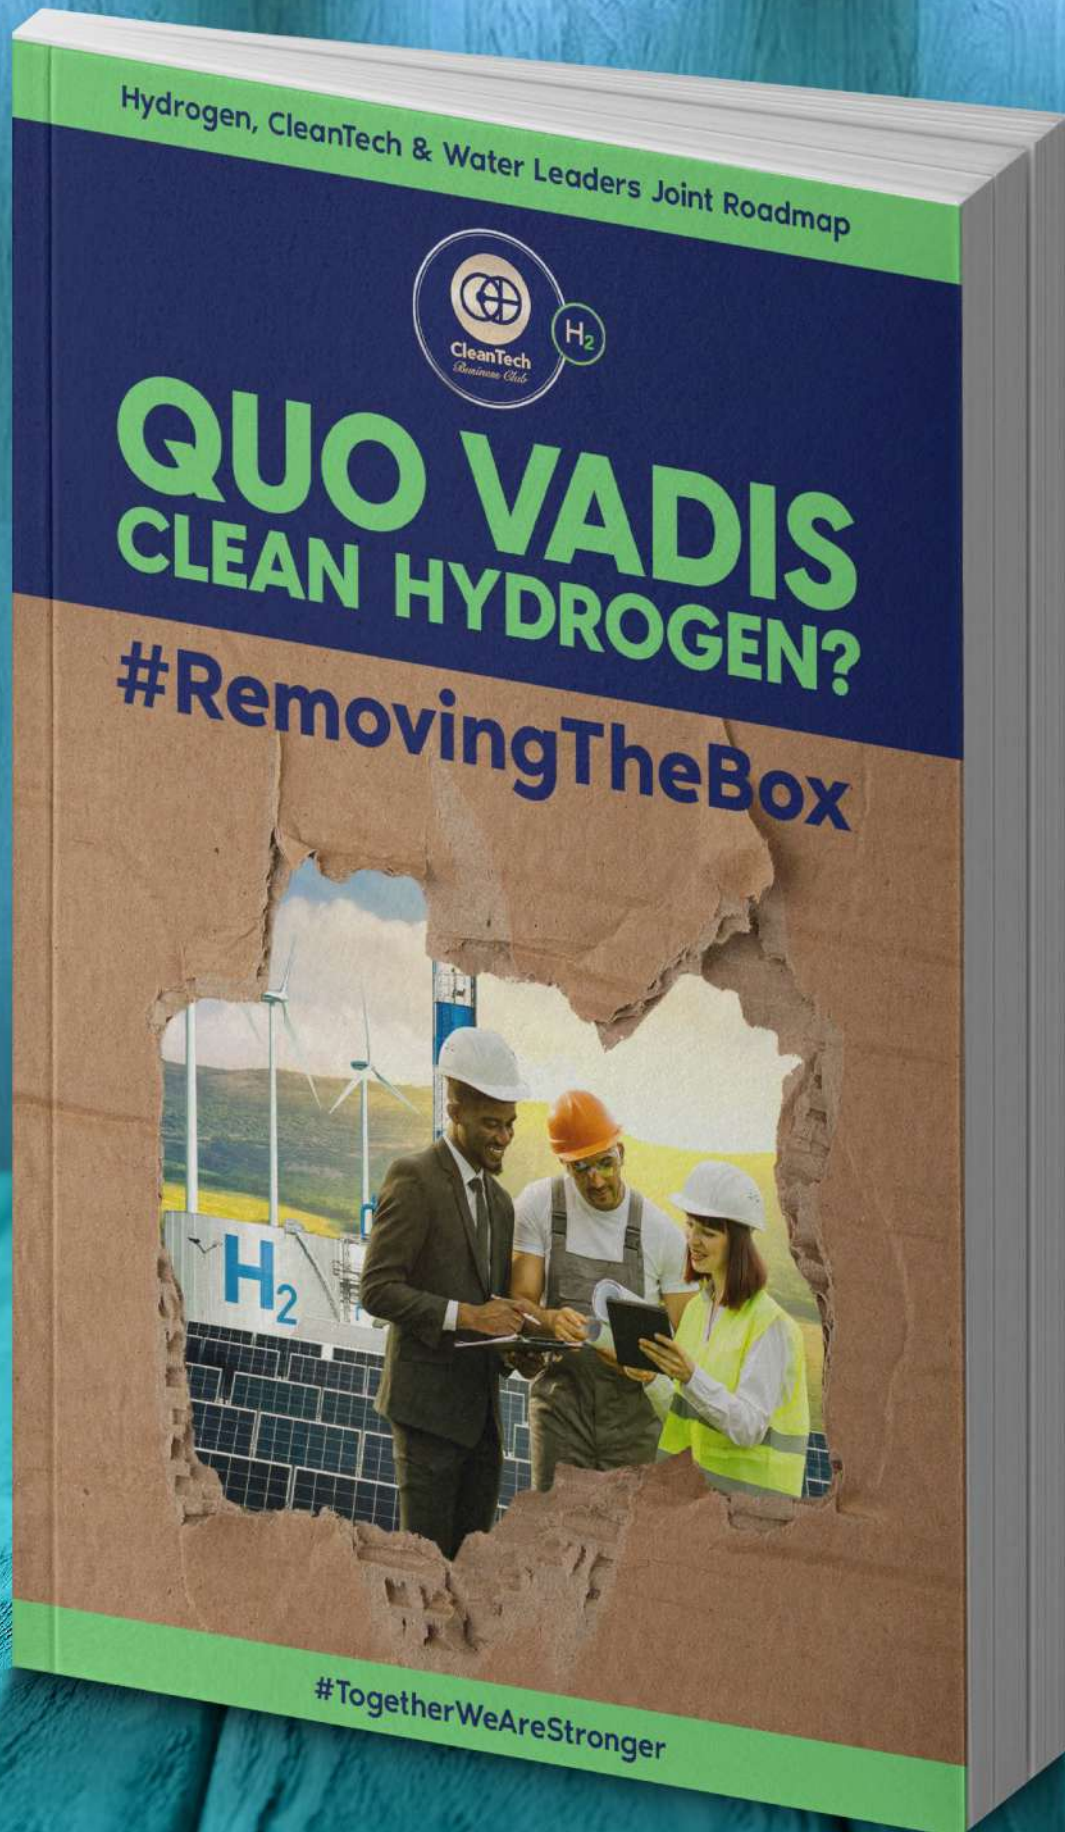

- **Cross-Sector Collaboration:** Unites industry leaders to guide global strategies towards sustainable development, leveraging CBC and its Partners' leadership in steering pivotal changes.
- **Economic and Environmental Benefits:** Generates substantial economic opportunities and drives regenerative growth, influencing positive global transformations and enhancing national economies
- **Integrated Innovation:** Develops scalable solutions that propel technological advancement and economic prosperity across multiple sectors
- **Educational Impact:** Educates and influences decision-makers, shaping policies that transform economies and societal structures for sustainable progress
- **Long-Term Sustainability Goals:** Aligns with global sustainability targets, supporting a shift toward a regenerative world and boosting economic development.

Concluding "The CBC Impact Legacy Series," we are set to author a sequel titled "The Future - Towards The Regenerative World" (THE FUTURE). This sequel will "picturise" the future by blending our aligned visions with contributions from a broad spectrum of stakeholders including disruptive technology industries, financial sectors, major corporations, energy companies, utilities, and political leaders, all united within the CleanTech Business Club's and its Partners' Networks. This collaborative approach will vividly illustrate our collective vision of the new world's paradigm, showcasing how we imagine a sustainable and regenerative future as **#TogetherWeAreStronger**.

"Having delved into the hard-to-unpack realms of sustainable energy and hydrogen for many years, we felt the need to craft "Quo Vadis Clean Hydrogen?" as a beacon of clarity. Both educational for new hydrogen enthusiasts while providing added-value for seasoned experts also, this book offers an exploration of Clean Hydrogen's trajectory at the intersection of countless key market, environmental and policy factors.

This Joint CleanTech & Hydrogen Leaders Roadmap navigates hydrogen complexities with precision, making it an indispensable read for policymakers, industry leaders, and all who are dedicated to forging a regenerative world departing from harmful carbon-intensive energies.

As co-lead author, I'm proud to have contributed this useful piece of knowledge, hoping it will help catalyze our transformation towards a just Paris-compatible world."

Mikaa Mered, CBC Co-Chair of Clean Hydrogen Hub (In Charge of Geopolitics & Diplomacy)

Adjunct lecturer on hydrogen markets, diplomacy and geopolitics at Sciences Po (The Paris Institute of Political Studies)

"Quo Vadis Clean Hydrogen? #RemovingTheBox"

"Over the past two decades, we, as CleanTech Leaders, have significantly expanded our industry, achieving an impressive 1000-fold growth. Now, we are leading the charge in advancing the global Clean Hydrogen Revolution. Clean Hydrogen is emerging as the preferred choice, not just for its environmental benefits but also for its long-term cost-effectiveness. Realising the dream of Clean Hydrogen requires a collaborative effort. It's essential that leaders in cleantech, hydrogen, and water sectors work closely, coordinating our efforts to scale up effectively and efficiently. We are committed to supporting our colleagues in the hydrogen industry. Our approach is to merge business acumen with purpose and joy, as we believe in the strength of unity. Together, we can make a significant impact." Thumbs Up for CleanTech & Clean Hydrogen!

"StorageVersity represents a paradigm shift in our approach to energy storage solutions. It is not merely a strategy but a movement towards harnessing diverse technologies to meet the multifaceted demands of our global energy systems. This roadmap embodies our commitment to innovation, inclusivity, and sustainability, ensuring that every sector and community has access to the right storage solution tailored to their unique needs. Where diversity in storage solutions — from battery and gravity storage to hydrogen, thermal, and kinetic storage — becomes our strength, by integrating various storage technologies, we are paving the way for a resilient and sustainable energy future, truly a cornerstone for tomorrow's energy independence. "CleanTech Business Club provides the platform to realize the rapid transformation of our global energy system to 100% RE. The CBC World CleanTech Awards, that I have the privilege to chair, honor visionary individuals, well-established companies but also disruptive Startups that are paving this way during the current CleanTech Decade"

**Prof. Eicke R. Weber, CBC Chair of World CleanTech Awards
Vice-Chair, European Solar Manufacturing Council**

Former Director, Fraunhofer ISE, Freiburg; Professor Emeritus, UC Berkeley

"I consider myself fortunate to work in an industry that has the power to make a positive impact on people's lives and the planet's future. With over 15 years of experience in the PV and storage value chain, I have gained a clear understanding of what truly matters in this market. The CleanTech Business Club is not just a business club but a community of visionary individuals who believe in the power of Human to Human interactions in the business world. Our diverse membership includes professionals from all parts of the value chain, united by a common goal: to drive the energy transition forward. I am honored to serve as the chair of CBC in Spain and proud to be part of a global network of professionals committed to making a difference. #TogetherWeAreStronger.

Laura Azpilicueta, CBC Chair for Spain

European Director ESS Business at CATL - AMPACE Technology Limited

"As a global community, we must act urgently and collectively to address the pressing issue of climate change. This requires a concerted effort towards innovation and collaboration worldwide, including the development and implementation of renewable energy and new technologies. At the CBC, we are committed to leveraging our members' extensive expertise and resources to support governments, companies, and regulatory institutions in achieving their decarbonization and net-zero targets. By working together towards these goals, we can build a more sustainable and resilient future for all."

Soufiane Naime, CBC Co-Chair of Utilities & Energy Companies Hub
